former position. "Mount Kanaga, Mount Kiska. Mount Makushin, Mount Carlisle and Mount Shishaldin are all emitting steam and showing signs of activity," said Captain Crisp. "Mount Katmal, which was in violent cruption in 1912

DAVIS COUNTY TAXES FOR STATE HIGHWAY

Farmington, Aug. 11.—To provide ample funds for the building of Davis county's part of the state highway, the commissioners today levied a special 5-mill road tax. This levy will fur-nish a little more than \$32,000, and in addition will render available for this purpose \$3,600 from the state road fund, making a total of about \$40,000 In making this special levy today he commissioners were placed in rather a peculiar position, as at a spe cially called meeting held in Farming ton, a majority of the citizens who were present to discuss the matter opposed the increased taxation. But the commissioners, in anticipation of this special levy, two weeks ago made one precinct of Davis county, so that all taxpayers might contribute to the building of the highway. This was to conform to the law providing for the levy of a special road tax only in pre-cincts through which the road passes For other road purposes in this county about \$15,000 are available, making i total of \$55,000 for better highways. Work on Davis county's portion of the highway will begin shortly from the south end and be pushed northward to the Weber county line, a dis tance of twenty-seven miles. While not definitely decided, it is generally understood that the road will be of oncrete all the way and at least sixteen feet in width.

The commissioners also fixed the regular tax levies as follows: Count tax, 41/2 mills; county school tax, mills, special school tax, 8 mills. The city school tax in Kaysville, Bountiful and Farmington is 5 mills and the state tax 7 mills.
